

Project: Genesis (New Beginnings)

Facilitators: Doreen Booker and Dr. Chris Cottrell

The whirlwind activity of the coronavirus and all its variants have disrupted the people of God in how we worship, fellowship and practice being the Church to a lost world.

What a toll this has taken, causing leadership roles to be redefined and in several cases, positions to be eliminated.

As we get closer to the post pandemic era of the coronavirus, we enlist your help with crafting an emotional and relational support system for our Pastor Spouses.

Project Genesis is about collectively mapping out a new beginning for those who are spouses of Pastors. The ultimate goal of this session is to create Koinonia among our male and female spouses of Pastors using in person and internet-based gathering tools such as zoom, messenger and office teams.

All Pastor spouses are encouraged to attend!

If you are NOT a Pastor Spouse, please consider sponsoring your home church Pastor's wife or husband. Their input will be important as we plan future events to include district meetings.

Doreen Booker and Dr. Chris Cottrell will facilitate this track. Together, they have over 50 years of being married to spouses in pastoral ministry!
